

UNFORGETTABLE HUNTING IN

THE SWEDISH MOUNTAINS!

Wholesale dealer A. W. Bergsten out hunting.

Join our autumn hunt!

The Royal Swedish Academy of Agriculture and Forestry invites all its Swedish and foreign fellows to take part in moose hunting and grouse shooting in the Swedish mountain wilderness. The hunting events take place on the grounds bordering the Academy's mountain estate Enaforsholm, situated in the province of Jämtland between Östersund in the East and Trondheim, Norway, in the West. Enaforsholm is easily accessible by air or by train.

Enaforsholm was donated to the Academy in 1937 by the wealthy wholesale dealer A. W. Bergsten. For almost three decades, this versatile and sociable man spent most of his summers and autumns in the region, enjoying clean air and beautiful nature while devoting his time to hunting and fishing, painting and photography. The Academy is proud to continue this tradition and to offer hunting in spectacular nature surroundings, in combination with a comfortable stay, hearty and delicious meals and good company at Enaforsholm, recently beautifully restored.

Grouse shooting

We offer grouse hunting at three occasions: August 26–27, September 16–17/18 and September 30–October 1. Grouse shooting over pointing dogs gives you a fantastic hunting experience in addition to social interaction within the small group of hunters.

Please note that the mid-September hunting event is a combined event where grouse shooting Friday and Saturday is combined with moose hunting Sunday.
